(February 12th, 1990 in earth) The cyan glowing portal opened and then

TS-007 (anya) gets taken away by robotic arms to remove her memories, some of her intelligence and her telepathy. (part 1)

(TS stands for test subject)

(November 24th, 2916 in unknown gaeran planet)

(The robotic arms time traveled just to get anya)

TS-007 now renamed to DP-018 (after aiden harper (DP-017), before voltail (DP-019)), diapered, dressed, almost restrained and injecting furry ears and tail juice. (Part 2)
(DP stands for diaper prisoner)

(November 13th 2916)

DP-018 fully diapered and restrained. She is now stuck in diaper prison forever. The machines in the prison took a picture of her to make her file (date of birth, sex, height and her name)(part 3)

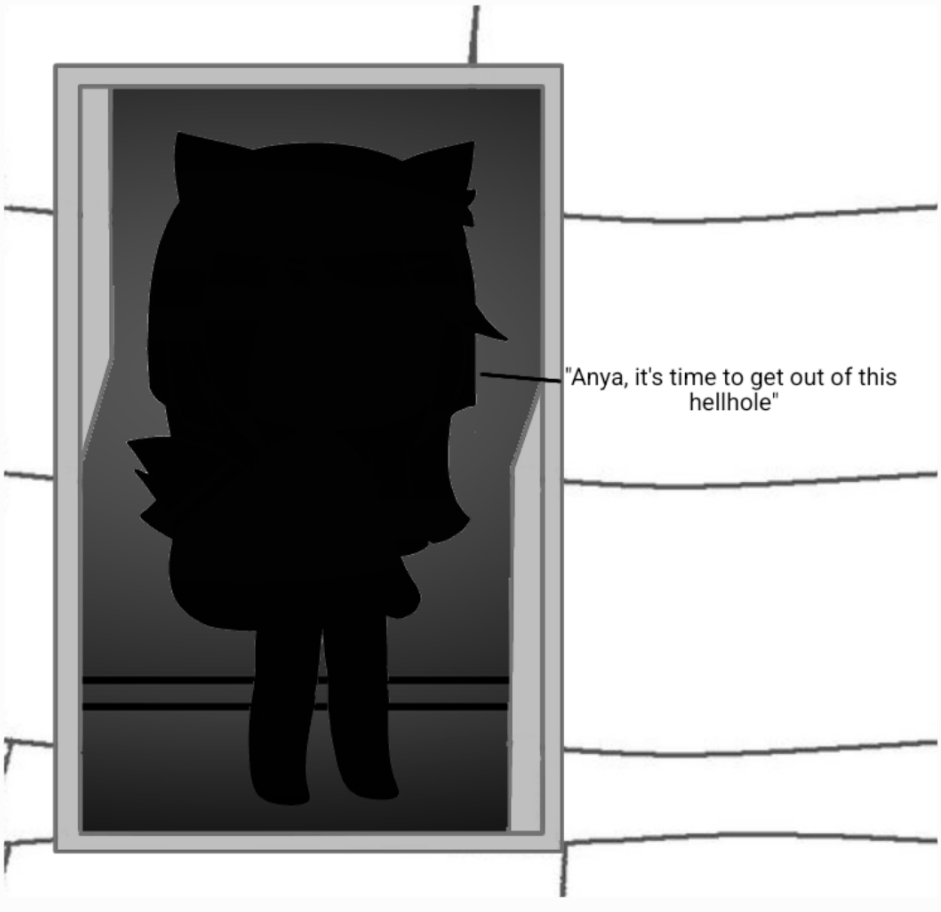
(November 14th 2916)(I actually miscounted the year dates, the actual year date in part 1 is 1990 and in part 2 and 3 is 2916)

DP-018 being hypnotized by fumes by the hypno collar, making her piss herself, and her onesie popped. (Part 4)

(December 24th, 2929(almost Christmas))

At the age of 13, the pacifier gag became loose in december 18th and DP-018 took it off because it was muting her. She tried learning her first words, but failed. (Part 5)

(December 25th, 2929(merry christmas in this date))



DP-016 (kylee harper) opens DP-018's door, freeing her with her. (Part 5.5)

(December 25th, 2929)

(was captured but did not get her intelligence and memories erased)
"n-new... place?"
"we're going to escape this fetish place! when we escape, we will find a new place to live in... anya."

DP-016 and DP-018 escape. No more torture for them, no more imprisonment, and no more restraints. Just a better place to live in. (Part 6)

And that's it.
